Office Action Summary

Art Unit: 1712

DETAILED ACTION

Claim Objections

1. Claim 13 is objected to under 37 CFR 1.75© as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claim 13 has not been further treated on the merits.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 2-10 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims all teach the terms "selected from the group substantially consisting of" or "selected from the group that substantially consists of", which renders the claims indefinite, since none of the listed materials have to be present in the pellet, and others not listed may be part of the pellet. The proper term for such Markusk grouping is "selected from the group consisting of".
